Freelancing

How to Sell Like a Professional

Presenter:

Junaid Nisar

Muhammad Hamza Hassan

What is **Freelancing**?

Freelancing is doing specific work for clients without committing to full-time employment. Freelancers often take on multiple projects with different clients simultaneously.

How Does **Freelancing Work**?

With freelancing, the client pays per project, per task, or per hour, depending on the agreement. Freelance projects typically involve short-term assignments, although satisfied clients often request additional work. Most freelance jobs are available in the skills, service, and creative sectors, such as copywriting, programming, engineering, and marketing.

Popular Platforms

- Upwork
- Freelancer
- Fiverr
- PeoplePerHour
- Guru.com
- LinkedIn
- Indeed

Impact of Generative AI on Freelancing

Upwork's study highlights both the replacement and reinstatement effects of generative AI on work opportunities and freelancer earnings.

Some tasks are automated and disrupted by AI, leading to reduced demand for certain jobs.

New tasks and job roles are created, increasing demand for skilled workers and higher-value contracts.

Data Science and Analytics saw 8% growth in freelance earnings due to the introduction of GenAI

Impact of Generative AI on Freelancing

Despite a general decline, high-value translation and writing contracts saw a 7% increase in earnings due to generative AI.

Categories like Accounting & Consulting, Administrative Support, and Legal Services experienced earnings growth (6%-7%) due to AI-enhanced productivity.

Freelancers engaged in AI-related work earn 40% more than those in non-AI-related work.

No/Low-code Generative AI tools

1. ChatGPT / Anthropic / Meta Llama 3.1
2. DALL-E / Flux.ai / Adobe Firefly
3. Sora / Filmora / Runway / Synthesia / InVideo

Prompt Engineering

Anatomy of a Prompt/Components of a Good Prompt

- **Persona:** assumed perspective AI should take
- **Task:** specific objective/action
- **Steps to complete the task:** A breakdown of the task into manageable sub-tasks or actions
- **Context/Constraints:** Additional information, background, or limitations relevant to the task
- **Goals:** The desired outcome or impact of the response
- **Output format:** The structure or style of the response

Note: Not all necessary for each prompt

Why **Upwork**?

- Have higher-paying sites than other sites
- Wide range of client projects to fit almost any freelancer skillset
- Easy to get paid: Sending invoices and accepting payments
- Active support
- Great badging system for beginners
